

Serial No. 08/447,712  
Docket No. 5634.0127

## APPENDIX A

## **APPENDIX A**

The following foreign reference has been cited by Applicants in the Information disclosure Statements filed 12-11-95, 12-22-95, 2-6-96, 4-17-96 and 4-7-97. Applicants have further included the following relevancy statement as well as an English abstract (in the case of foreign patents), thus meeting the requirements as set forth in 37 CFR 1.98 and MPEP § 609.

### **For the Information Disclosure Statement filed 12-22-95:**

**23 38 330      February 13, 1975      Germany**

This reference discloses television receivers that transmit control signals to a decoder/processor combination.

### **For the Information Disclosure Statement filed 2-6-96:**

**61-050470      March 12, 1986      Japan**

This reference discloses a program engagement device that displays the program content at a television receiver and includes a display output control device.

**60-61935      April 9, 1985      Japan**

This reference discloses a system that generates, detects, communicates, and/or converts digital signals.

### **For the Information Disclosure Statement filed 4-17-96:**

**2 058 681      June 15, 1972      Germany**

This reference discloses a television mode arrangement for transmitting, receiving, and presenting coded information.

**For the Information Disclosure Statement filed 4-7-97:**

**0 020 242      December 10, 1980      European**

This reference discloses a teletext character alignment process.

**0 046 108      February 17, 1982      European**

This reference discloses a integrated circuit interface between a television receiver and recorder.

**0 049 184      April 7, 1982      European**

This reference discloses a pocket teaching aid using a television receiver with a teletext system.

**0 055 167      June 30, 1982      European**

This reference discloses a teletext CRT display for messages from a composite memory.

**0 077 712      April 27, 1983      European**

This reference discloses a multi-channel digital packet television broadcasting system.

**0 078 185      May 4, 1983      European**

This reference discloses a digital packet broadcasting system using television transmissions.

**2 496 376      June 18, 1982                  France**

This reference discloses a teletext display of data on the television screen.

**2 516 733      May 5, 1983                          France**

This reference discloses an error controller for a teletext television decoder.

**2 823 175      November 29, 1989                  Germany**

This reference discloses a teletext information display for television transmission.

**24 53 441      May 13, 1976                          Germany**

This reference discloses a wideband signal transmission with digital to image signal conversion.

**DE 30339949 May 6, 1982                  Germany**

This reference discloses a method for the generation of teletext display having a color character contrast.

**DE 3112249    October 7, 1982                          Germany**

This reference discloses a processing signals from either a colored television receiver or from a video text decoder.

**DE 3020787    December 17, 1981                  Germany**

This reference discloses a television transmission system that sends extra data during a blanking period.

**WO 80/00292    February 21, 1980 Japan**

This reference discloses a decoder for a television receiver that has a color component that splits signals and recombines the signals into a composite drive current signal.

**WO 83/00789 March 3, 1983      Japan**

This reference discloses an image display unit which displays received image signals via a memory, wherein the image signals include teletext displays of weather reports or television programs.

**Graf, P.H., "Antiope-Uebertragung fuer Breitbandige Videotex-Verteildienste," 1981.**

This reference shows an Antiope demodulator/detector.

**Heller, Arthur, "VPS - Ein Neues System Zuragsgesteuerten Programmanfezeichnung, Rundfunk technisde Mitteilungen, pp. 162-169.**

This reference discloses a decoding system for use with a VCR.

**Marti, B et al., Discrete, service de television cryptee, Revue de radiodiffusion - television (1975), pp. 24-30.**

This reference discloses an analog decryption system.

**Strauch, D., "(Las Media De Telecommunication Devant la Rapture. Les Nonvellas Methodes Presentees a L'Eposition International 1979 de Radio (Et Television)) 1979.**

This reference is a discussion of videotext, teletext, ceefax, oracle, and antiope.
